Forecast for Sunday 29 May 2022

Weather: Cloud building through the morning, leading to some hazy sunshine but also the risk of occasional showers, perhaps heavy at times. The showers easing off into the evening with some clear periods developing.

Chance of cloud-free hill tops above 800m: 70%.

Low Cloud and visibility: Cloud occasionally obscuring routes above 500m, most likely in association with showers, but otherwise mainly above summit level. Showers will also reduce visibility for a time. Otherwise very good visibility is expected.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Overall, fine conditions on the hills, but be prepared for quick changes in conditions should showers pass over.

Forecast for Monday 30 May 2022

Weather: A mixture of clear spells and isolated showers at first. Cloud becoming widespread through the morning, although some bright spells are still possible. The risk of showers continues throughout, perhaps heavy in the afternoon. Staying rather cloudy into the evening and night.

Maximum wind: Westerly 10mph

Chance of cloud-free hill tops above 800m: 70%.

Low Cloud and visibility: Cloud largely above the summits but may temporarily fall to 600m any showers, obscuring higher routes. Good visibility is otherwise expected outside of any rain.

Temperature: **Valleys:** Plus 6 Celsius, rising to Plus 14 Celsius.
At 800m: Plus 1 Celsius, rising to Plus 3 Celsius.
Freezing level: Just above the summits.
